Ph.D., Lecturer Kunming University of Science and Technology Email: tang@kust.edu.cn Web: zhiyitang.info 727 South Jing-ming Rd. Cheng-gong District Kunming, Yunnan 650500

Objective

My research studies structural health monitoring (SHM) for civil infrastructures. I am interested in developing methods that learn structural behavior/performance as inverse problems. Also, I pay close attention to improve monitoring systems' reliability.
